December 16, 2025: Letter to Governor Abbott

Governor Abbott and Texas Republican Party:

The fall out from Donald Trump's ongoing spying operation and attempt to make my life a 'living hell' is nothing short of a childish plea for attention every single day for years now.

I read today that Donald Trump's behavior is similar to that of a 5th-grader or 6th-grader and I might even estimate it to be lower than that. After learning what his tactics are for obtaining power and influence in America, I am completely disappointed in the American way of life and I absolutely recommend a change in course for the future of our people.

This should not be continuing at this time. This should not have reached this point at all. Donald's team was spying on our home, and then began damaging our property. I insisted that they stop spying on our home and they have continued to invade our space on a daily basis causing more and more discomfort to us if and when we protest against their illegal actions.

This is not government, this the childish temper-tantrum of a perverted peeping-tom that got caught in the act. Richard Nixon was the first Republican to disgrace your party, and now Donald Trump is the most recent.

Between the spying operations of Donald Trump and Richard Nixon, we had George Bush Sr. and George Bush, Jr. - the Republican track record is poor and is not worthy of our support.

Your political party was supposed to represent our fiscally conservative values but instead it is simply pro-military spending and pro-war.

I cannot say that I support the Democrat Party after what we just went through but I will certainly put in writing that I will never support the Republican Party ever again - ever.

I shook your hand, Governor Abbott, and thanked you for your leadership during the 2020 Covid crisis. That was a long time ago and now I do hope to see a new Governor elected.

(Yes, another car just drove past my home to coincide with me writing that sentence. Why would I ever support your party? There is absolutely no reason at all to ever support the Republicans again.)

Sincerely,

Chris Carlin
